Healthy Habitat Model Rubric

Expectations	Student Rating - Rate how you did with each expectation.	Teacher Rating - Assign points based on how well the project meets each expectation.
Did you show at least 5 things salmon need for a healthy stream habitat? You can *show* by drawing pictures, making physical models, making a video, etc.	❏ No, I didn't show any. ❏ I showed 1. ❏ I showed 2. ❏ I showed 3. ❏ I showed 4. ❏ I showed 5 or more.	Each healthy part of the stream *shown* is worth 10 points. _____ / 50
Did you include words to label what those things are? You can *label* by writing words, phrases, or sentences. You can label by writing a description to go with your model. You could label in a video by talking about what your video shows.	❏ No, I didn't label any. ❏ I labeled 1. ❏ I labeled 2. ❏ I labeled 3. ❏ I labeled 4. ❏ I labeled 5 or more.	Each healthy part of the stream *labeled* is worth 10 points. _____ / 50
	Total Points:	_____ / 100

Note: If you make a video about a nearby stream, you can show *unhealthy* things about it as well as *healthy* things. Maybe your stream doesn't have 5 healthy things. What could be done to fix the unhealthy parts?
